CAREER OBJECTIVE

MERN Stack Developer with hands-on experience building modern web applications using React.js, Express.js, and MongoDB. I am currently seeking a Junior **Full Stack Developer role** to contribute my skills while continuing to grow professionally.

SKILLS

Programming Languages	: JavaScript (ES6+)
Frontend	: HTML5, CSS3, Tailwind CSS, DaisyUi, ReactJs
Backend	: ExpressJS, MongoDB
Authentication	: Firebase, JWT
Deployment	: Firebase Hosting, Netlify, Vercel, Surge
Tools	: Git, GitHub, VS Code, Postman
Soft Skills	: Quick Learner, Tech-Savvy, Problem Solver

PROJECTS

1. VroomRent (Jan 2025 - Feb 2025)   Live Demo | Frontend | Backend

Developed both front-end & back-end for a full-featured car rental solution where users can explore cars, make bookings, and manage their rentals with a responsive and intuitive interface.

Features:
- Some pages have switchable layout modes that persist across visits.
- Discounts auto-apply (if available for that car) when booking meets the specified min/max day criteria.
- The add car page allows unlimited image uploads.

2. ResiFlow (Feb 2025 - Feb 2025)   Live Demo | Frontend | Backend

Created a front-end and a back-end for a user-friendly platform for landlords to post apartments and tenants to browse, filter, and book rentals securely.

Features:
- Unique dashboards for users, members, and admins, each with role-specific pages.
- Payment supports monthly/advance payments with one-time discount codes.
- Utilizes TanStack Query for caching and quick data retrieval.

3. ChillGamer (Dec 2024 - Dec 2024)   Live Demo | Frontend | Backend

Built a community-driven web app where gamers can post & manage reviews. Users can explore content through custom filters, enjoy a personalized UI experience, and manage their profile settings.

Features:
- Supports both dark and light themes.
- Filter game reviews by genre, title (A-Z), rating, year, and order.
- Pagination: Large datasets are split into pages for faster loading and smoother navigation.

Certification: Complete Web Development Course By Programming Hero (Batch-10, 2024)   View

Languages: Bengali (native), English (reading and writing), Hindi (fluent speaking)
